

Clark Forklift

Clark Forklift Forklift Training - At this time, there are at least 350,000 Clark forklifts performing worldwide, and upwards of 250,000 in service in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 individual items fabricated for 20 unique designs of forklifts and automated equipment. Your local Clark Supplier is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's extraordinary Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a really outstanding worldwide support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling market.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's recurrent mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck maker across the world to be certified with the internationally accepted quality standard ISO 9001 for every one of their production plants. Also, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental restrictions, thus placing them in a prevailing industry position.

Supply Efficient Manufacturing

Clark has preferred the particularly economical and advantageous structure of "Lean Manufacturing" for its assembly plants and use of resources. This structure was developed to acknowledge the most effective approaches of manufacturing facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Engine Design

Clark's product engineers and suppliers communicate together to perfect the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering agenda combines innovative product growth and delivers improved customer support and service within the industry.
